

VR Society is an open, social

& persistent **platform**
built on the Blockchain.

Buy land, build or import NFTs and
instantly use and monetize.

Our universe is **shaped entirely**
by VRS members.

The VRS Vision

Our ultimate vision is to build an entirely new world for the next level of communication, e-commerce, entertainment and a place to live. We are building a platform for citizens to build on. VRS is an Open, Social and Persistent Virtual Reality World, empowered by blockchain technology where everyone can buy land, build or import objects, use avatars and scripts, easily monetize their experiences and immerse themselves into a completely alternative reality. Virtual Reality is here, and the future looks amazing. Hardware has advanced dramatically with better headsets available at very affordable prices, haptic suits, finger and eye-tracking and even VR motion platforms allowing you to take a free walk-in VR from the comfort of your home. What was missing is the final and ultimate destination. VRS is a place where you can come and experience the unknown, do the impossible, meet, work and have fun with people thousands of miles away in one universe.

We at VRS are making that vision a reality.

Practically, our long-term vision is to create a stunning and user-generated virtual environment that offers a rich addition to reality. It will be packed with new and exciting possibilities that can be explored by thousands of people at the same time. Built as a cross-platform world from smartphone apps to desktop VR, VRS allows people to experience one constantly expanding, a seamless world shaped by users. Combined with an in-world economy on the blockchain, it provides a next step towards a true Metaverse experience.

We believe in a true virtual reality **Metaverse** and this is what we are targeting and building, not only on the technology and commercial level, but also on a philosophical level. We ask ourselves where humanity will be in 2, 5, 10, but also 50, 100, 200 years. **And how VR and Blockchain will change humankind as a species.**
